

REMEMBER

It was the Veteran, not the reporter,
Who has given us the freedom of the press.

It was the Veteran, not the poet,
Who has given us freedom of speech.

It was the Veteran, not the lawyer,
Who has given us the right to fair trial.

It was the Veteran, not the campus organizer,
Who has given us freedom to demonstrate.

It is the Veteran, who salutes the flag,
Who served under the flag,
And whose coffin is draped by the flag,
Who allows the protestor to burn the flag

By Father
Denis Edward O'Brien, USMC

Democrats and Intelligence:

From a security standpoint the Clinton administration was dangerous to our health. Sir Jimmie the vicious was not the brightest bulb in the box and he is the man responsible for our lack of intelligence before 9/11. These two presidents were weak on defense and intelligence. Clinton was a crud and as someone said Madam Mao Clinton was the consummate liar. Clintons hate for the military is cast in stone but hey he's loved by the democrats without reservation. This guy was cowardly and preoccupied with sex and Monica on her knees singing sweet nothings to his crotch. Clinton was awash with female and ethical problems from the start of his presidency. But through all this the democrats said "but he's doing a good job", the same words used in Nazi Germany after the night of the broken glass when Jews were brutalized, property confiscated, businesses destroyed, sent to concentration camps and murdered. "BUT HE'S DOING A GOOD JOB"!

The republicans had a golden opportunity when they took over to put the Clinton administration under the microscope. Maybe we would have found the truth somewhere in all the fast talking, fork tongued crap politicians give us. But alas we had a president {W} that wanted to be above the fray which is a code word for don't get the democrats angry at us. Don't rock the boat! We want the people to love us because they hate us for having idea's. To a democrat that's a bad habit. To them emotional decisions are the way to go. Be silent says W or

is it because the democrats high jacked 900 FBI files while Louie Freeh was asleep. They used to accuse President Reagen of sleeping on the job. Thank God for his naps because he couldn't sign any new tax increases. Well back to the southern bookends C & C who set the stage for 9/11 along with his fellow democrats.

Starting with Senator Frank Church's Committee in 1975 that started the ball rolling damaging our intelligence agencies. He actually called the intelligence agencies "rogue elephants" . Over zealous, yes, rogue, no. He did everything in his power to slow down their operations. He did a good job!

Then came the man responsible for our inability to know what our enemies were doing and his name is Admiral Stansfield Turner {or is it Turnip}. I try to imagine a meeting between Carter and Turner. Were flies on the wall and it goes something like this:

Turner: Mr. President, what is it you want me to do

Carter: Wait a minute I have to ask Amy

Turner: I have to be up with the committee within the hour

Carter: Well its like this I need money to get our social agenda going

Turner: We have decimated the Navy and that should bring in a few bucks

Carter: Its not enough

Turner: How about we convince the congress that we don't need assets on the ground but we will use electronics to keep track of our enemies. You know, the right wing! The rest we don't have to worry about

Carter: Can we fake them out

Turner Oh yeah, plus I'll tell them we will raise money for their next election--giggle, giggle

Carter : Do it

Turner : Consider it done

So what else did he do. For openers he eliminated 800 operational positions in favor of electronics surveillance. He convinced the committee that we didn't need

we will never know until our enemies hit us with whatever they stole like the Neutron bomb, kills people but everything else stays intact. She went along with the security agency that was guarding the facility and cut personnel so the vendor could save money. After she left the agency guess where she went, you got it she went to the agency she helped. We know our government will not tell us anything so we spend our time wondering, WHEN!

Now comes the piece de resistance, Jamie Gorelick, second banana to Janet Weenie. What's her claim to fame in the intelligence gathering. It's just a small thing like putting a wall between intelligence so no one was talking to each other and as a result the dots could not be connected. Then they have the nerve to put her on the 9/11 commission to find out what happened. This commission neglected to investigate the Clinton administration role in all this. Clinton's a democrat and we know there not to be asked anything because of the double standard set by the democrats handmaidens in the press. I either read or was told that this wall was put up to protect the Clintons. We have Tom Daschle to thank for her appointment to this commission. Tom Kean should be ashamed of himself and as the chairman he should have been more forceful since it has to do with life and death and safety. He should have stopped her appointment just on the grounds she was a political hack.

Then came Senator Torricelli of New Jersey you know the guy that resigned because he was naughty. Another not so brilliant bulb in the box who was the architect of the regulation that stated if you wanted to deal with a crud with a naughty background you had to get permission from higher ups before even approaching the naughty person. To the really brilliant people in the agencies that might have considered following this stupid regulation should be fired. Imagine putting this kind of restraint on our police. This put a serious damper on the intelligence gathering ability of the highly dedicated men and women who serve our country so well. The piss ants that continue to frustrate our intelligence agencies need to be taken out to the woodshed and whipped until they feel the pain they give to the heroes who try to protect us.

On and on it goes with the democrats and our intelligence agencies. They don't like this law or that law! The laws are infringing on our rights so say the democrats and that's so much bull----- . These sub-humans that want to kill us must love the democrats. They undermine our soldiers and their heroic service to our country. They undermine the security forces. They get away with it because we're silent and that has to come to an end, now. They have become dangerous to my family because it's all about political posturing and power at any price. We can't tolerate this too much longer and if we're hit because the borders aren't sealed or it's more important to have government union baggage inspectors than more efficient inspectors. We Americans must not let them come up with excuses after we're hit. If we are and it was caused by government neglect then it's time to consider changing this government as is our right under the Declaration of Independence "That to secure these Rights, Governments are

instituted among Men, deriving their just Powers from the Consent of the Governed, that whenever any Form of Government becomes destructive of these Ends, it is the Right of the People to alter or abolish it and to institute new Government”.

More fun stuff! There's CIA Director Deutch walking around with secret documents he either lost or misplaced, maybe he just left them around for everyone to see?

Then there is Sandy the thief Berger our NSA chief who should be in jail until he looks like Rip Van Winkle. Again he's a democrat and he's sooooooocompassionate that he can be excused. Questions-- What did he steal that the government doesn't know about? What did he destroy and did someone order him to do it? What did he carry out when he left office? Was he in contact with our enemies or other foreign nationals.

Then there's the cozy relationship with the Chinese. The Chinese rockets were so inaccurate that they were scared to launch them for fear of hitting Beijing. But the Clinton administration came to the rescue. The Clintons sold them the technology to guide their rockets to their target accurately. They sent a man in space and fired a satellite destroyer and they were accurate. All thanks to the Clintons. He also pardoned two imprisoned leftist Americans and the democrats do love the Marxist.

You also have to think about Freeh and Deutch for there brilliant moves after taking over. Freeh {a decent guy} fired four men with almost a hundred years experience in intelligence. Deutch got rid of his second banana and replaced him with a women. Affirmative action over the best you can find male or female. When Madam Mao Clinton is president do you think she will appoint Jane Fonda as CIA Director.

After thought ,anyone know if Donna Shalala the one in charge of the social stuff for the Clintons. Was she the one that started political correctness when she was head of the University of Wisconsin. Then there's Wendy Sherman one of our top notch government employees under Maddy Albright who negotiated with that shrimp from North Korea and were taken for a ride.

It will probably be a year after we are defeated for the nut cases from the middle east to attack us and the people think its going to be a massive attack. That will only be part of it. A series of attacks that will bring our economy to a slowdown. The British Empire was brought to its knees because of WWII and because during that conflict they went broke. We reacted exactly the way our enemies expect us to. Spend a lot of money until were broke. “ W “was absolutely correct attacking Iraq, it was a perfect way to scare our middle east enemies out of their murderous intent. But as I have said along with other people he should never have debanded the army. He should have used the communist purge

system after hostilities ceased. You will never again get a democrat to sincerely protect us. Reason you can't is because they spend nights trying to figure a new ways to tax us out of most of our money,dumb the country down through our education system, remove their perceived military threat to the world by cutting {once again} our military or turn it into a social agency, Political correctness to silence us and if your white, keep you on a guilt trip.

When the democrats told us they were going to take us in a new direction and now that its on the record they will now define "new direction" as a new short cut to Boston.

Its so bad with me that instead of counting sheep to go to sleep I count democrats jumping over all the piles of money someone made on the BIG DIG. Now that they have a democratic govna we will see no one jailed for this. Just another boondogle like theTip O'Neil building by North Station. They keep getting away with everything. We conservatives may have to ask the party to get new blood untill all those people whose files were reviewed by the Clinton gang are gone.

Finally----Do you think there was a conspiracy between Clinton, Clinton, Berger,Deutsch and Reno to set George Bush up for a fall by them lying about WMD's. Do you also think they set up Judge Starr of Lewinsky fame by piling the work on him and screaming day after day that the Judge was spending to much money on investigating nothing.??

Any validity here!
